

Why choose FIT4Cloud?

Cloud computing will enable your business to: **Develop, Scale and Run** Applications on virtual machines. **Store and secure** your data without having to build and maintain on premise infrastructure.

How Freestyle IT can help

With our expertise and simplified **migration** tools we can advise on the right cloud solution and ensure a smooth and seamless **transition**. FIT4Cloud Services include the **deployment and management** of:

 Microsoft Office 365

 Online Data Backup

 Disaster Recovery as a Service (DRaaS)

 Infrastructure as a Service (IaaS)

For power and flexibility choose FIT4Cloud

Accelerate the deployment of your business infrastructure.

Store all your critical business data and applications in one place with minimal management.

Empower your users to access, share and collaborate from any device anytime and anywhere.

Protect your customer data.

***Put simply** - moving to the cloud increases efficiency and helps improve cash flow.*

What our customers are saying...

“You can judge a company best by how it reacts when something goes wrong.

Freestyle IT were exemplary when we had an IT outage. I want to sleep well at night and ignore IT! Freestyle’s attitude when things went wrong was better than any other IT company I’ve worked with and that is the best testimonial that I can give.” - *Giles Guest, Director - Enhance Media*

Trusted and Experienced

For 15 years we've been providing customers with infrastructure solutions, facilitating business success. Building on our strong reputation for reliability and excellence of service we have developed FIT4Cloud...

Choose FIT4Backup to:

- **Access** from any location, via Internet or FTP
- **Share** backup of your data with remote locations
- **Preserve** and protect your data against adverse events
- **Enjoy** shorter recovery times
- **Benefit** from deploying Solutions which offer up to 99 years of retention
- **Reduce** costs with manageable and scalable monthly payments.

Choose FIT4DRaaS to:

Protect your business from unplanned downtime and ensure high availability.

Complement your tools and continuity plans. We design and deploy Disaster Recovery Solutions which:

- **Scale** based on the size and complexity of your business
- **Deliver** unified data management, security and protection
- **Facilitate** compliance.

Choose FIT4IaaS to:

Increase stability and reliability, freeing up your team to get on with business. Eliminate capital expense and reduce ongoing cost. FIT4IaaS provides:

- Combined core directory services, advanced identity governance and application access management
- Servers and storage
- Networking, firewalls and security.
